

Multi-Drop Thimble Eye for Round Drop ADSS

The AFL Multi-Drop Thimble Eye is used to anchor aerial round drop cables to the distribution structure. The uniform radial slots can accommodate up to four formed wire deadends per thimble eye and support tensioning up to 90 degrees from the installation hardware. This is particularly useful when double deadending is required.

Features

- Anchors up to four aerial drop cables
- Supports tensioning 90° from installation hardware
- Slot base for ease of installation
