

# MAMBA ROUND LOCATE MARKER POST + ACCESS POINT

## APPLICATION

Rounded HDPE marker post with tracer wire access point built in. Provides high visibility to buried utilities and access to a tracer wire system. Can locate to or from the marker post with ability to connect/disconnect ground from the built-in access point. High-grade pigment and UV stabilizing agents provide maximum protection against fading. Alerts excavators to buried pipes/cables and can be customized with utility brand, 811 logo, and Call Before You Dig logo.

### BUILT-IN TRACER WIRE ACCESS POINT

for 2-way tracer wire locating

### CUSTOMIZABLE GRAPHICS

### TWIST TOP OR SECURITY SLEEVE

#### Twist Top
