## Majortel™ DC-DC Converter System

## Majortel 130 to 24 Volt

- » Wide DC Input Range with User Selectable Output Voltage
- » Extended Temperature Operations; Up to 75°C
- » Programmable Alarms with Dry-Contacts
- » Integrated Remote Communication Package
- » Easy, Manageable Monitor Screen
- » Quick Check LED Indications

The Majortel 1U Converter System is a sleek, compact design that is ideal for applications requiring 24V DC Power from a 130V DC Power Source. Each system is designed to occupy a true 1U (1.75" tall) rack space in a standard 19" wide rack and under 11"deep. Typical installations include two compact, high density and reliable high frequency 25 amp converters, for a total system capacity configuration of 1600W at 24V output.

The MTD24/50-130-1U system includes a simple Load 1 and Load 2 breaker distribution to support multiple output feed configurations. The system is user configurable for 25A or 50A applications.
