

We Want to Repurpose Your Equipment

Have you thought about repurposing your unused equipment? By repurposing you are adding equipment back to the industry, replenishing crucial supplies. This action of 'repair and reuse' also works by reducing the carbon footprint, as it conserves energy and valuable resources. Our refurbished equipment performs like new and is backed by warranty. Visit our Buyback program to learn how our process works and submit a Bid Form for review and rebate pricing.

Looking for Protection Against Brownouts?

Are you curious about solutions for Brownout protection? We have a product you should consider.

This micro UPS offers uninterrupted DC power and increased surge protection with up to 10 hours of battery backup. Pair it with this enclosure to simplify that install and you've got a winning combination.

Contact us for pricing!
